

JAMMER OF WIRELESS NETWORK Wi-Fi «Model - 24P»

This device is intended for blocking (jamming) wireless network Wi-Fi.

The device is delivered in attaché-case. It has no extractable emitting antennas and other de camouflaging features. Wi-Fi jammer is powered by built-in rechargeable battery. The set of accessories includes charger to charge the battery from 220 V/50 Hz AC mains.

Technical specifications:

• Jamming frequency bands, MHz	2100...2600
• Radius of radio controlled fuses blocking zone, no less than, m	30
• Continuous operation time from built-in battery, no less than, hours	3,5
• Operational temperature range, °C	-10...+40
• Execution	splash-proof
• Mass of the set, not more than, kg	9,0
• Device's dimensions, mm	460 x144 x 425

GPS receivers blocking device (GPS Jammer) “Model-42S”

This device is intended to block (suppress) operation of GPS receivers.

It has splash-proof case (waterproof case is an option). Two aerials are located at the case of the unit. The case has special fixing flanges that ensure secure and easy mounting of the unit on the mast or other construction.

The GPS Jammer “42S” is powered from AC mains 220/240 V 50/60 Hz. To ensure continuous operation during mains power failure, the unit is equipped with

uninterrupted power supply (option) that ensures operation of the unit for 2 hours.

The GPS Jammer “42S” does not require any adjustment routine, and ready for operation when power is switched on.

Technical specifications:

Frequency bands being blocked, MHz	
<ul style="list-style-type: none"> • First channel • Second channel 	1,200 1,500
Integral output power of each channel, W	20
Guaranteed blocking radius for special purpose two-band GPS receivers (GPV-100 type) when aerials are located at the height of not less than 8 meters, m	Within the limits of direct visibility
Power requirements	AC mains 220/240 V 50/60 Hz or uninterrupted power supply (option)
Operational temperature range, °C	-10...+40
Dimensions, mm	400x300x300
Mass (without uninterrupted power supply), kg	10
Case type	Splash-proof, waterproof (option)

Delivery set includes the following items:

- Generators’ unit;
- Aerials;
- Uninterrupted power supply (optional extra);
- Cables, fixing elements;
- User’s Manual;
- Spare parts (option);

- Steel mast 8 meters long (optional extra).
- Special unit' option is adopted for easy mounting on pilot-less aircrafts.
