

# **Bomb Jammer «Model - 27P» (without extractable emitting aerials)**

This device is intended to block operation of radio controlled fuses based upon cellular phones of GSM 900, AMPS/DAMPS, CDMA, GSM 1800, GSM 1900 standards, and wireless phones with 500...2,000 MHz operational frequency bands.

Cellular Phone Jammer «27P» is intended for EOD squads executing search and discharge of radio controlled explosive devices, security

services and agencies protecting VIPs against acts of terrorism when radio controlled explosive devices may be used.

The device is delivered in a standard Samsonite® attaché-case. It has built-in battery that ensures its autonomous operation. The set of accessories includes an external AC/DC charger (220V 50 Hz mains).

The device offered is simple in exploitation and maintenance, does not require any adjustment routines and is ready for operation after power is switched on.

## Technical specifications:

- Blocked frequency bands, MHz 500...2,000
- Radius of radio controlled fuses blocking zone (at control distance not less than 100 m), not less than, m 35
- Continuous operational time from built-in rechargeable battery, not less than, hours 2
- Execution splash-proof
- Dimensions, mm 460 x 400 x 140
- Mass, kg 10.2

Bomb Jammer “27P” has certificate of State Standard Committee of Russian Federation.
